Textile pen set based on plant dyes in **6 natural colours**.

- Tiger eye
- Almond blossom
- **Fresh lemon**
- Wild sage
- North Sea breeze
- Stone

For writing on, painting and decorating light-coloured textiles

washable or fixable

The ink can be washed out again before fixing.

New textiles do not need to be pre-washed and are recommended.

After fixing, the painted textile is wash-resistant.

If the nature's ink should be removed from the textile and a new attempt is to be made, the UNFIXED textile can be washed in the household washing machine at **40 °C** within 24 hours of painting. After drying, the textile can be designed again.

GrüneTinte

organic

Alternatively, nature's ink can be permanently fixed by ironing after painting.

- Approx. 2 minutes on the COTTON setting for natural fibres.
- Approx. 4 minutes on the POLYESTER setting for blended fabrics.

The colour on the textile is subsequently wash-resistant at **40 °C**.

What makes our nature's ink SUSTAINABLE?

- **Ink made from water-based natural dyes**
 - Colours 100% plant-based
 - Additives / co-solvents 100% based on renewable resources
- **Pen body made from recycled plastic**
